CEO MESSAGE

TNC Global is the **best logistics company** that have grown based on customer's **Trust** and **Challenge**.

Chairman of TNC GLOBAL SON YOUNG CHUL

- ▶ Logistic Business We provide ONE-STOP logistics service in all areas such as warehouse storage, stock management, based on various experience on ocean/air transportation, customs brokerage, in land transportation, BULK transportation, and PROJECT cargo transportation. In the third party logistics, we provide the best service through logistics cost reduction, promptness and logistics consulting to improve customers' export and import competitiveness.
- ▶ Packing Business We have been doing export packing on various types of freight range from small business entity to conglomerate on the basis of wide experiences and high technical skills. We do not satisfy the present and provide customer satisfaction service as studying innovation of quality and packing technique required in 21st century. Also, we have been establishing trust with customers in the field of small, medium and large sized packing qualified products by the use of the best raw materials. Through selection of materials and the know-how we have accumulated over 30 years.
- ▶ Fumigation Business We have been conducting the inspection through training for staffs not only disinfection for vessels but also sterilization and pest control for agro-fishery products based on commitment to the mission as said the inspection is the second national defense in the process of import/export
- ▶ Overseas Business Overseas business department is providing competitive services by establishing a global network of more than 120 countries and 250 cooperate partners.
- ▶ We will take the lead in customer satisfaction with passion and dedication as acknowledging customer's need properly and providing what the customers want in time. We, all staff members give you a firm promise to grow up our business with you as having the action goal that takes a responsibility for even one small good of customers with painstaking care till the last.

VISION

WORLD NETWORK

TNC GLOBAL is currently having a network of over 120 countries. We provide integrated logistics services such as ocean, air, inland, and 3PL(third party logistics).

DOMESTIC NETWORK

ASSOCIATION MEMBER ACTIVITIES AND AWARDS

OCEAN FREIGHT

As a member of FIATA/KIFFA, We provide fast and competitive ocean export/import by our global network

[LOGISTICS BUSINESS]

We provide the one-stop logistics services based on our experiences in Ocean/Air Transport, Customs clearance and brokerage, inland transportation, and bulk/project transportation which is connected to import/export warehouse storage, stock management. In third party logistics, to reduce logistics costs for improving customer's export and import competitiveness, we provide fast and accurate logistics consulting.

We provide logistics costs savings, fast, accurate, and customer's satisfaction, by providing differentiated and integrated management system, such as the delivery of cargoes, packaging, and providing logistics centers uses.

AIR FREIGHT

As a member of IATA, we provide fast and competitive air export/import services to customers by our Global networks.

Customer's cargo can easily be stored at the Bonded Warehouse and General Cargo Warehouse storage service located in Incheon Airport.

PROJECT CARGO/ BULK SHIPMENT

TNC GLOBAL project cargo partner, UNIMARINE is able to ship safely and quickly

- › We offer an optimal route for the type of cargo and regional/national characteristics.
- › The shipping documents (certification, customs clearance, insurance) will be carried out after the exact/fast delivery of the vessel and on-site review.
- › TNC GLOBAL works with overseas partners to provide the best service to ensure project/BULK shipments are delivered in advance through customs and licensing procedures in your country.

3PL SERVICE

TNC GLOBAL provides a third party logistics service that provides a comprehensive logistics function of two or more logistics functions, includes transportation, storage, packaging, and quarantine. TNC GLOBAL aims to improve customer service, reduce logistics costs, and advance logistics operations by commissioning logistics-related products such as supply and demand of raw materials, inventory and warehouse management products.

- › TNC GLOBAL offers a more secure and reliable cargo storage service for export/import products, and it will provide valuable storage management of customers' assets based on large warehouses by worldwide network as well as in the major local areas of Incheon and Busan.
- › According to customer's requirement, available warehouse service are: Refrigerator/Freezer, Temperature, Humid controlled, Storage system.
- › The main airfreight storage services are provided by TNC GLOBAL's own warehouse at Incheon airport.

INLAND TRANSPORTATION

Domestic networks (Busan, Incheon, Gwangyang, Pyeongtaek, Ulsan, and Seoul) are built to provide secure and rapid transportation of containers and bulk cargo for customers

[FUMIGATION BUSINESS]

From ship disinfection to disinfection of goods for export and disinfection of facilities, employees are trained to take preventive measures. It is also one of the few ISPM certification companies in the country that are leading the way in the area of quarantine prevention.

ISPM NO. 15 (INTERNATIONAL STANDARDS FOR PHYTOSANITARY MEASURES)

> Symbol(LOGO) : The symbol approved by IPPC

- KR : Country code of ISO (ex: KOREA→KR)
- 34019 : Produce / treatment provider code
- MB : Treatment code using the appropriate abbreviation according to annex 1 (HT, MB)

[PACKING BUSINESS]

With 30 years of experience and technology, we have produced and supplied the perfect quality, reliable product packaging, from small packaging to medium and large packaging, through the innovation of packaging technology required by the 21st century.

› **Open Type** It is proper for the goods that don't need the prevention from water and air.

› **Air Tight Type** It is mainly used for wooden box packing and can prevent goods from humidity, dust, breaking and stealing.

› **Vaccum Type** The aluminum containers can keep goods from rust and erosion by making inside of the container in vacuum.

› **Skid Packing** The props can support the goods tightly and safely. The shackles and wires can be used for more protection.

› **Bundle Packing** The goods with same type and shape or same loading and transportation condition can be connected together by using the steel bands.

› **Stuffing** The goods with completion of packing are loaded in the container to prevent them from the loss in the period of marine transportation by using wires and props.
